Arhors note: sorry that i wasnt activ hier for a long time. I was bisy writing my book. I put so much work in it that I even finishedd the first page of it. i will try to puplish more storys here, i maybe promise.

i write this story for a friend of mine who is a big fan of animal crossing and a big fan of isabelle but there are not many animan crsosing fanfictions and not mayn erotic animal crossing fanfics so i have to write one. this is a lennon fanfictin so if your not adult you should not read but if do it anyway i wont stopp you. also the protagonist ist the reader or in other worts: **YOU**

Please enjoy this little story and like always critisim is aprechated, even thouhg i usually ignore them. You kann still write them though if youu want.

You lives in Stadttown, a small village somewhere in the world of animal corssing. You are standing in near isabell's office and you are weiting for her to give the sign. You look on the beach it was a nice and sunny summer night and the cricketts were cheeping loud but not so loud to ruin the sexxy mood. It was 11pm and issbelle came out off he building and started humping you which was the sign that they could begin with thier carnal interplay of bodyparts and biofluids inside the building because noone would come around this time because they were buisy sleeping or partying or fucking or what else people would do around almost midnight. "Are you reday for the boneing?", isabele ejaculates out of her mouth and not her pussy obviesly. "ja, I am," you reply. You tow go inside the building and close the doors and kurtains. you to start two kiss eachouther on the lips with unruly deisaire. You then start to put your tongs in your mouths and like the inside of your oral cavity. her mouth tastes like spit and dog foot but very delisious dog fod. You do this for 20 minutes.

than they begin to undress them self. Isabelle is frist to shy to undress herself but than she decised to do it any way. she fists takes of her hair tie because this is what womans with ponytails do before they have sex. I've seen this in movies. Then she took off gren chequered vest reviling her white and clean shirt. afterwords she took of her white and clean shirt showing her quilted white bra. Not that she needed the padding, her bosoms are all ready d-cup size. she just likes the filing of highquality treecotten on her upper

hills. After 3000 milliseconds (that would be exactly 3 seconds) she finally takes off her breast holders exposing her breast to the gaze of your eyes. Her boobs are of average size but they are still very cute, just like Isabelle. Her areola is also nice. You feel your throbbing member getting harder, just as hard as the muscles of a construction worker. She then begins to take off her miniskirt displaying her not so white panties. It's soaked in a cocktail of transpiration and vaginal discharge, possibly urine and manure too. With quivering hands he reaches down to the undergarment and pulled them down, presenting her vagina to you. It was very wet, as wet as a ocean filled with water and it was a marvellous sight to see. Her lips are of perfect size and Her small phallus imitator was pleasing to the oculus too. You then pull down your pants and underwear and the remaining cloths in one move and present her your 13.12 cm (5,17 inches) long throbbing gristle. (I simply assume that your penis is of that length, I don't even know if you have a penis. If you don't because you're a woman or because you lost it for some reason, just pretend that you have one) Isabelle let out a pleasure filled shriek out of her vocal chords. "oh my, I didn't know you are so biiiiiiiiiiiiiiiiig! (she means the size your penis of course and not your actual height)" said Isabelle. "well, you have carte blanche (complete discretion or authority) major, how should we begin our exhilarating rite of sexual contact" you decide to do it like they always do on pornhub and begin with a blowjob. she poots head to your rod-shaped mass of engorged tissue and begins to lick it like a lollipop. her tongue felt like a wet piece of meat and you like it. she begins it slow but then she got fast. You moan in pleasure and your little peter get even harder. After a while it got boring and Isabelle took your candybar out of her mouth. Now she shows you her firm and very round ass and her wet womanhood. «Which hole do you fuck first?» she asks. You choose for the vagina. "do you think that you can fit it all in" she expresses. You begin to push your meat drill in her slit. "OOOHH" let Isabelle out. you begins it slow but then you got faster. "faster... faster faster..." she moaned. you push your penis inside, then you pull it out, push it in her hole then out again. You repeat this action 600 times. Somewhere between the 387 and 388 stroke you feel the urge to fart. You are not sure if you should let it out or to keep the gas inside your rectum. If she notices that you farted, it would ruin the mood.

A few inside outside movements later you could not hold it back anymore. You flatulate the intestinal gas. Lucky it was just a quiet smellless fart so Isabelle didn't notice it. A few strokes later you two feel the cinematic climax coming. "HAA, I THINK IM CONNA CUM!" screams Isabelle in such a volume that it would cover up a hardcore rave. coincidentally, you have to orgasm too. you extract your boner out of her mossy cleft and you release your glue on her face just like in those anime pornos you watch. Isabelle moans as the liquid bullets fall like rain on her snout. she licks the stuff off her face and says that your seaman tastes like hard water. you two now laid on the floor and kiss

each other. she says that it was amazing and that it was the best oment of her life and that she would do it again and that your super handsome and suave,. You agere with her, espacially her last point.

and so you bouth fall a sleep on the ground.
